### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: In combination with all the limitations recited in the independent claim, all the prior arts do not show a fiber optic adapter for use with two optical fiber connectors comprising an attenuation hub having a first ferrule and a second ferrule fixed to each other and forming an optical path between the first and second ends of the attenuation hub. Furthermore, none of the cited references teaches or suggests inline attenuation devices be placed within an adapter so that they would be intervening structure between end faces of ferrules of optical fiber connectors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
